Accent Librarian
Enterprise Edition

ACCENT LIBRARIAN ENTERPRISE EDITION

Advantages of the Enterprise Edition

Librarian Enterprise Edition is implemented within your organization's environment giving you maximum control and flexibility. Librarian is designed to easily integrate with your existing business applications and can scale to support thousands of users.

The Enterprise Edition is fully web-based and can be quickly deployed to support organizations with offices and personnel located around the globe. Many Global 500 companies have adopted the Enterprise Edition for its unmatched power and flexibility.

Distribute critical documents and information instantly. Secure, web-based library increases productivity with instant access for users and support staff around the world.

Ensure use of the latest and most accurate information. Librarian automatically senses changes and updates outdated materials.

Search and locate items easily.

The powerful search offers unprecedented power and precise control over the retrieval of relevant content—retrieve files, or parts of files such as slides, pages, paragraphs and more.

Create tailored documents and presentations quickly.

Select slides, pages, or rich media to create new presentations or documents specifically addressing client needs.

Easily share files and information.

Share library content with individuals outside your organization with simple, fully secure links that avoid email system bottlenecks.

Control quality and accuracy.

Organizations can maintain precise control over brand and content accuracy, ensuring that only approved, accurate information is distributed and presented to clients.

If you are interested in an online demo of Accent Librarian, email sales@accent-technologies.com.

"Accent Librarian's Advanced Document Management (ADM) technology is a new approach to an age-old challenge. The sales team focus is on selling—reducing time spent gathering and assembling documents."

Create personalized sets of information in your library. "My Favorites" feature allows you to create logical groupings of your favorite items. The content automatically updates so you always have current, accurate information at your fingertips.

Set up and maintain your library remotely. Library administrators can easily import, organize, add, edit, or delete categories and files and publish content to the library quickly from any web browser.

Keep track of rich-media assets—images, movies and sounds. Librarian Enterprise Edition supports all the commonly used media file formats and makes them easy to locate and repurpose.

Organization your library easily. Group presentations, business documents and media files into customized categories by importing existing category folder structures from your hard drive.

Protect access with flexible security options. Password protection and built-in security levels allow you to control individual access to library content and allows you to track usage.

Scaleable architecture. Accommodates an unlimited number of users while providing state-of-the-art performance.

Secure, flexible design. Designed to integrate easily with CRM systems, databases and other applications through a full-featured API while providing the highest level of security for your files and user accounts.

Get started quickly. No ten pound training manual needed! Our familiar, user-friendly interface offers multiple viewing options and SmartCart™ shopping cart-style selection. Flash tutorials and built in help are also included.

. . . And Much More
